

ELECTRONIC MAIL COMMUNICATIONS

The seabird listserver, Seabird-I, on the Internet (see *Marine Ornithology* 21: 77, 1993) has changed its electronic mail address for posting messages to seabird@uct.ac.za. Send "information seabird" in the first line of the message field to obtain information or "subscribe seabird <surname, first name>" in the first line of the message field to subscribe, both to listserver@uct.ac.za. Membership in August 1995 stood at over 360.

The Editor, who also co-manages Seabird-I with Andrea Plös, can be contacted on jcooper@botzoo.uct.ac.za. Inclusion of author's e-mail addresses when submitting manuscripts for consideration for publication in *Marine Ornithology* is strongly encouraged because the whole process of acknowledging receipt, reviewing, editing, accepting papers for publication and dealing with proofs can thus be noticeably speeded up.
